Pursuant to Title I M.R.S.A. §402, "the term 'public record' means any written, printed or graphic matter or any mechanical or electronic data compilation from which information can be obtained, directly or after translation into a form susceptible of visual or aural comprehension, that is in the possession or custody of an agency or public official of this State or any of its political subdivisions ... and has been received or prepared for use in connection with the transaction of public or governmental business or contains information relating to the transaction of public or governmental business.

The Portland Police Department does not keep a record of search warrants categorized and classified in the particularized data fields that you have outlined in your request. The warrants are filed with the case for which the warrant was generated. The department does not maintain electronic data, spreadsheets or other database formats for this type of information. Collating the type of information that you have requested would be time consuming, expensive, and would, in most cases, require a hand search of police department records. There is no requirement for a municipality to research or create a record (digital, electronic or otherwise) in order to satisfy a FOAA request.

The Maine District Court Judicial Branch may keep a separate record of search warrants reviewed and signed by a Judge.

Please do not hesitate to contact me if you have any questions in regards to this matter. I can be reached at 207-874-8599.

Sincerely,

A handwritten signature in dark ink, appearing to read "BethAnne Poliquin", with a stylized flourish at the end.
